

Every town in Arizona should have a lively commercial club boosting its resources.

The New Mexico constitutional convention promises that the constitution of that state shall go to the president and congress by the first of February. It is a little early yet for the Arizona constitution makers to make a definite announcement. When all the propositions are in, perhaps some forecast of the future may be hazardous.

Arizona's constitutional convention is not the only place where the official "verbatim appendix" has been removed. The standpatters in control of New Mexico convention at Santa Fe have decided by a majority that they do not want any record kept by official and expert stenographers of their acts.

The El Paso Times says: "Colonel Pickett, a pioneer lawyer of Tombstone, is already shelling the Arizona woods, figuratively speaking, in the promotion of his candidacy for the United States senate. And he is making a very favorable impression, seemingly, throughout the new state."

He Is Sick--Very Sick-- Love Sick

He is seen daily about the streets of Tombstone but he is in love. You can tell it by the far away look in his pale blue eyes, by the involuntary sigh, by the ambling and abstracted step, by the peculiar mood of preoccupation by him recently adopted. It is a morbid case and when he looked up some potent medicine antidotes, he did not know whether he had better dose the liver or the heart, prescribe dieting or strychnine.

Just what Los Angeles is planning to celebrate in 1925 has not yet been divulged in this part of the country, but evidently there is a concerted movement.

Scholarship Examinations Concluded

Examinations for the Rhodes scholarships were concluded yesterday at the university at Tucson and the papers will be sent off immediately to Oxford where they will be graded and returned.

In case Strong successfully passes the written examination, a committee composed of members of the faculty of the university will award the scholarship to one of the three boys as they seem most deserving. The papers will hardly be returned from Oxford for over a month, so it will be December at least before it is known to whom the scholarship is awarded.
